Overview
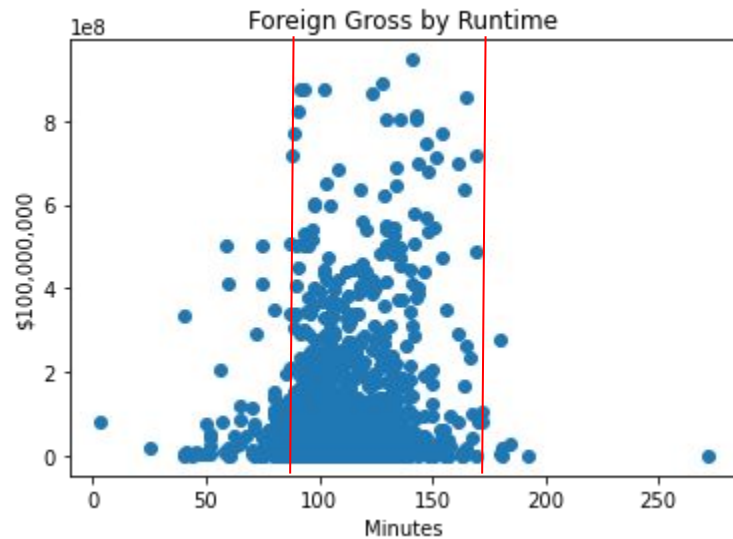

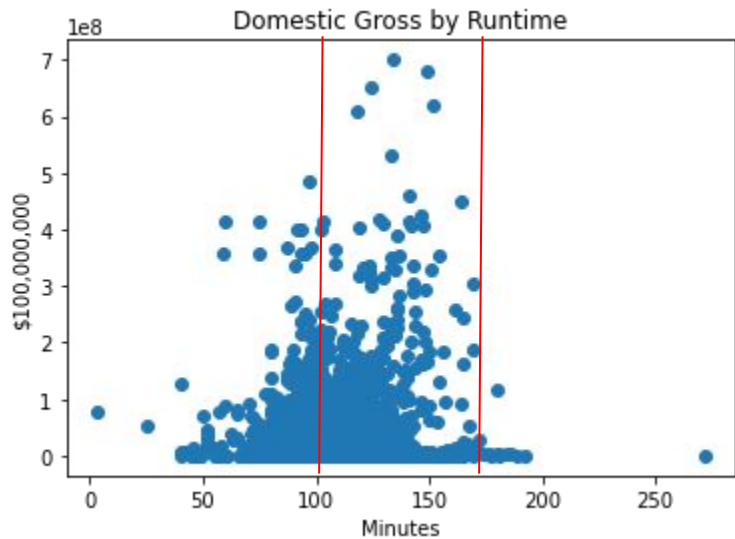

Understanding the Data

```
['movie_id',                ['title',                 ['movie_id',
 'primary_title',            'studio',                  'primary_title',
 'original_title',           'domestic_gross',          'original_title',
 'start_year',               'foreign_gross',           'start_year',
 'runtime_minutes',          'year']                     'runtime_minutes',
 'genres',                                               'genres',
 'averagerating',                                        'primary_name']
 'numvotes']
```
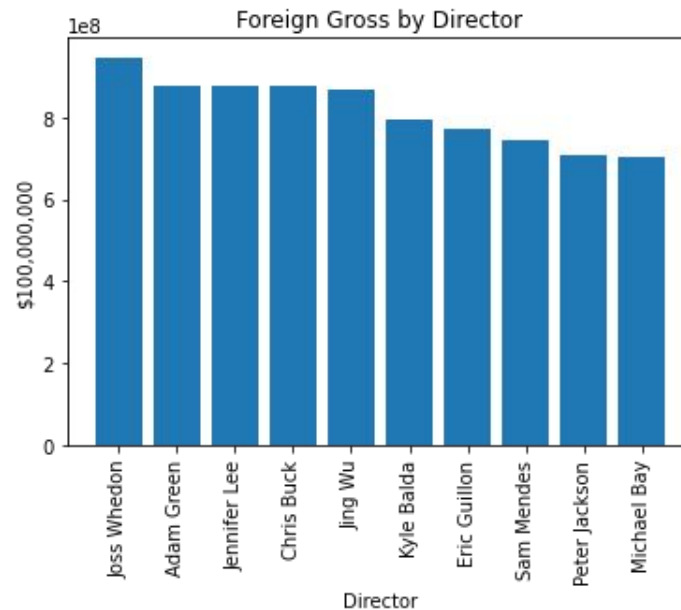

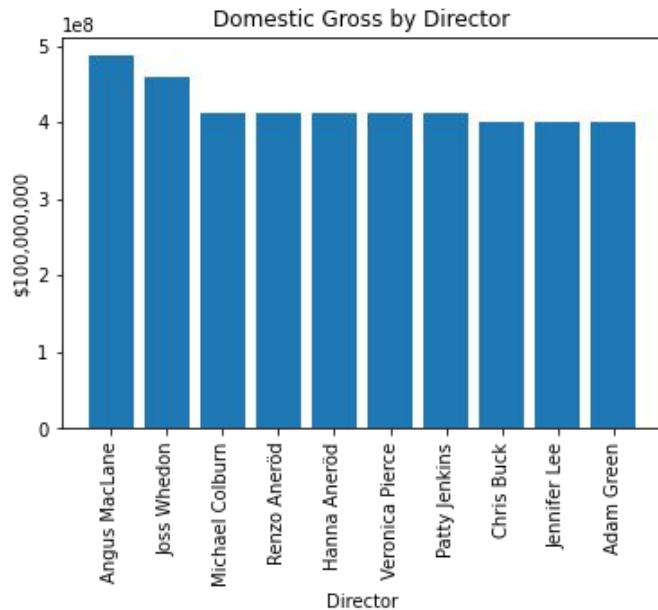

Goal 1: What is the ideal Runtime?

Goal 2: What is the ideal Genre?
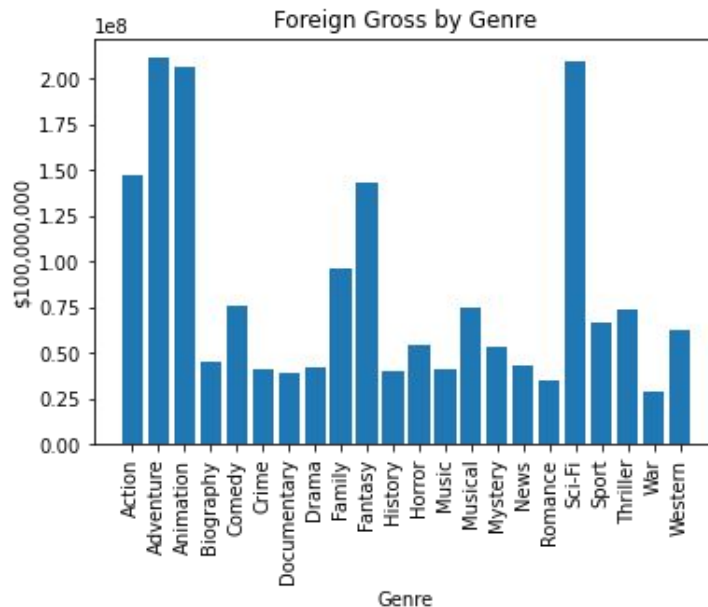

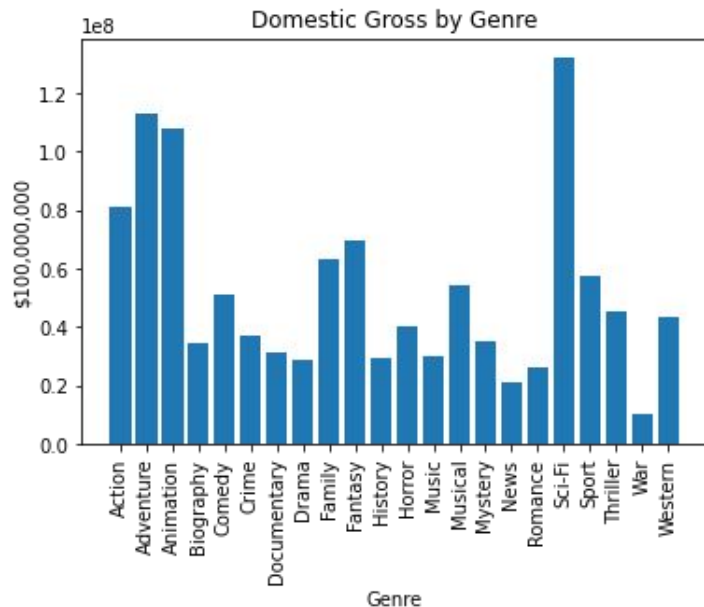

Goal 3: Who is the ideal Director?
